IN UNITED RAILWAYS.

Nearly Every Thing on the List

Was Firmer and When Sold

HEAVY TRADING

Brought Higher Prices. An unusually good Saturday was had on the local Stock Exchange yesterday. A good demand was had, sellers were willing to sell when prices reached their limit, and the dealings were heavy, a total of 830 shares changing hands during the sess and at prices that were even better than those current at the previous day's close These sales were almost wholly in United Railways, two brokers being in the market, one exclusively for the preferred stock and

the other for transit, or common, and bethe other for transit, or common, and between them they made a right active and strong market, sales being made at the top prices of the week. The preferred, sales of which amounted to 500 shares, all brought \$78 and closed with buyers willing to pay \$77.75, but there were no sellers under \$78.25. Transit to the amount of 200 shares brought \$30.75 and \$24.50 was bid and \$24.75 asked at the close. There was little interest taken in the bonds, which were bid and offered at \$39.50 and \$30, respectively.

and offered at \$39.50 and \$30, respectively.

Bank and trust stocks were quiet yesterday, but generally strong, and in some cases higher prices were established. This was true of Third National Bank, which was up 3 to 4 points from the previous day's closing, sales being made in 10 shares at \$211, and a like amount at \$212, while the close was at \$212 bid and \$215 asked. Other bank stocks were practically unchanged. There were no sales made in trust stocks, though there was a very good demand for the most popular, and in some instances stronger bids were made. Mercantile was inclined to be weak, and was offered for sale at the close at \$317.80, with no bids. On the other hand, Mississippi Valley and Lincoln, together with St. Louis and Commonwealth, were in demand and firm, \$356 being bid for the first and \$233 and \$24 asked for the second. The two last-named were quoted at \$253 bid and \$217.50 bid, respectively, they being offered at \$255.50 and \$220. The only mention of Title and Guaranty was a selling offer of \$188.

HUMITSCH WAS NOT IN COURT. Judge Marshall Defers Sentence and Issues Capias.

Albert F. Humitsch, the former Third street commission man, who was pieced on trial Thursday in the United States District Court, charged with using the mails to defraud, was not in court yesterday when the jury returned a verdict in his case, and knowledge of his present whereabouts is very much desired by the court officials.

After considering the evidence for two days the jury finally reached an agreement at 6 o'clock Friday afternoon, but the verdict was not announced, as Humitsch had left the courtroom. Yesterday morning the jury reconvened and returned a verdict of guilty on one of the two indictments under which Humitsch was prosecuted. Humitsch, however, failed to put in appearance and his absence could not be accounted for. Judge Marshall deferred sentence and issued a capias.

The case went to the jury late Thursday afternoon, but no agreement was reached and the jurors were dismissed until Friday morning. The jurors were unable to agree on certain points and Judge Harshall was everal times asked for instructions before an agreement was reached. The jury will report again at 16 o'clock to-morrow morning. Humitsch is out on £,000 bond, furnished by Benjamin Bernstein. Albert F. Humitsch, the former Third

SELECTED THE TEACHERS.

Principals and Assistants Chosen by Mexico, Mo., School Board.

REPUSIAC SPECIAL.

Authorized Capital Stock \$1,000,000, Divided Into 10,000 Shares of One Hundred Dollars Each.

\$300,000 Will Be Issued at Once, \$60,000 of Which Has Been Set Aside for and Credited to Improvement and Development Account.

This \$300,000 of stock is based on one hundred acres of land located four miles south of the gushers, ten acres one and three-quarters miles northwest of the gushers, and one hundred acres four miles northwest of the gushers. There are 30 or 40 derricks in sight of the ten-acre tract, and all this land is in the proven oil district. In addition to the 210 acres of leased lands above mentioned, this company owns in fee simple 30,000 acres of land in the recognized oil district of Texas. We have four up-to-date well-drilling outfits that we will put in the field by June 1 and we are going to develop these lands at once. The titles to all our lands have been passed upon and pronounced good by Duncan and Longs attended to the company of Tyler. Tex Duncan and Jones, attorneys, of Tyler. Tex.

We own the perpetual mineral and timber rights in all these lands, and if no oil is found outside the proven dis

We own the perpetual mineral and timber rights in all these lands, and if no oil is found outside the proven district, the company can still sell its fee simple lands for farm, stock and fruit-growing purposes, together with the timber thereon, for the amount of the \$300,000 stock to be issued at this time, less a reasonable deduction of, say, from 20 to 25 per cent, which will be spent in drilling wells and developing the oil and mineral rights of the property. A portion of this stock is offered to investors at par. Three hundred thousand dollars is all that will be issued at present, and every dollar of this goes for the purpose of purchasing the lands, developing them and obtaining the leases. The seven hundred thousand dollars of treasury stock will not be used for any purpose, except the acquirement of additional lands, obtaining additional leases, the purchase and equipment of fefineries, smelters, laboratories, pipe lines, etc., and all expenditures; from this fund of treasury stock will be under the supervision and control of the Board of Directors.

In a nutshell, our proposition is this: If we strike oil or minerals in paying quantities, here is our profit. If we denot strike either oil or minerals, our 30,000 acres of fee simple of land is worth at least 75 per cent of the money we started with.

Do you know of any other company that can make this statement? For further information and particulars ad-

TWO ADDITIONAL SUITS FILED. Litigation Over Murdoch & Dickson Partnership Estate.

Two suits were added yesterday to the ittigation over the partnership estate of Murdoch & Dickson, which has been in the courts since the death of Charles K. Dickson in 1871.

One was a suit by William C. Richardson, in charge of the Murdoch & Dickson estate, against the American Car and Foundry Company, for possession of nine lots in city

mpany, for possession of nine lots in city ck No. 770, and ten lots in city block

No. 771.

It is alleged that the defendant acquired the title to the property in question subject to the interest of the partnership estate of Murdoch & Dickson,

The other suit is an action in partition brought by Cornella T. Dyer against the children of Charles K. Dickson and others. The plaintin alleges that she acquired the Murdoch & Dickson interest in property on Second street, extending from Prairie to Gano avenues, fronting He feet on the west line of Second street and running back to an alleg.

an alley.

The Supreme Court decided that the assignment of Murdoch, made before the administration of the partnership estate of
Murdoch & Dickson was intuled, was not

OF BEAUMONT, TEXAS. Incorporated under the Laws of the State of Texas

CAPITAL \$1,000,000. Divided into 1,000,000 Shares, Par Value \$1 each, Full Paid and Negassessable

Millions of dollars are to be made in the now famous oil fields of Southeastern Texas as certainly as the world revolves, for their resources are practically inexhaustible, the demand for their product assured. The fortunate investor who gets into a good company in these fields NOW will receive returns that will compare favorably with those of the

original ground-floor investors in the great industrial successes of the day.

Oil sells at the well in Texas for 6 cents a barrel, costs less than 16 cents to produce. Any primary scholar can figure out the profit from an investment in the stock of an oil company at par—over 200 per cent. Buy the same stock at 50 cents on the dollar, and the profit is 600 per cent.

With an absolutely perfect chain of title from the original Spa

With an absolutely perfect chain of title from the original Spanish grant in 1835 to the present day, and ewaing in fee simple, free and clear of all encumbrance, four thousand five hundred and sixty-one acres of all lands in this region, no other company in the Texas fields holds more assured promise of rich returns than the Beaumont & East Texas Oil Co.

Its lands lie in Jefferson, Hardin and Liberty counties, and include two tracts in the Beaumont field itself, one being distant only 6300 feet northeast from the Lucas and 6500 feet from the Beatty Gusher, the other but 2500 feet from these greatest oil producers ever known in the history of the world. Its third tract lies just west of the Saratoga and Sour Lake districts, where the same character of oil is found as in the Beaumont district, and at equal depths will doubtiess be found in equal quantity as well-as quality. In fact, it is believed that the Sour Lake and Saratoga districts will be the next to develop gushers equality if not excelling those at Beaumont.

Contracts are now being made with drillers to sink wells as soon as rigs can, be placed on the lands, which will be within thirty days at the latest.

For the purpose of developing these valuable properties at the earliest possible date, the Beaumont & Bast Texas Oil Co. offers for public subscription

100,000 SHARES AT 50 CENTS

the dividends carned will be proportionately large, and every certificate of a Bedwinout & East Texas Oil Co. represents to the holder a proportionate only in its carnings, but in the lands it owns.
